All,

As promised on our group call last Thursday, attached is a timeline of permitting and compliance actions for Tucson Iron and Metal. The word document provides permitting information from our physical files and the spreadsheet lists our compliance actions. The spreadsheet contains two tabs, 2017 to current compliance records and all compliance actions prior to 2017.

We are available to provide you copies of any referenced actions.

Please contact me or Jackie Ronstadt if you have any questions.

Thank you
